Portfolio: <https://darrylsimpson.github.io/react-portfolio/>

As a graduate of the University of Wisconsin Coding Boot Camp, the primary focus is full stack web development. Knowledgeable in the MERN stack of development and enjoy creating clean, functional websites. Prior work and hands on training has helped gain an extensive understanding of computers, from building to installing necessary software. A quick learner and thrive in challenging positions, whether it be independant projects or those requiring a team approach.

Technical Skills

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

Applications: GitHub, MongoDB, MySQL

Tools: Express, React, Node, jQuery, Bootstrap, Tailwind

Projects

House-It | <https://github.com/chriswein12/house-it> | <https://house-it.herokuapp.com/>

- With this project we designed an app to revolutionize the home maintenance process and bring peace of mind to homeowners, by bringing a modern and intuitive file system that puts your home's essential records at your fingertips
- My core responsibilities for this project was working with the front end of the project dealing with react and the css for visuals and JS for functionality.
- A Few technologies we used for the back-end were Bcrypt, Express, GraphQL and Mongoose. And a few for the front end include Apollo, React, Bootstrap, and React-dom

HowTo.Help | github.com/geigea84/how-to-dot-help | how-to-dot-help.herokuapp.com

- Online portal for connecting small nonprofits to volunteers
- Role: Pages on the Front end, as well as login, signup functions using express-sessions.
- Tools: Express.js, MySQL, Session, Sequelize, Node.js

Dungeons and Dragons 5th Edition Campaign Resource |

<https://github.com/cgsdesign/table-top-resource> |

<https://cgsdesign.github.io/table-top-resource/>

- One stop shop for playing 5th Edition Dungeons and Dragons
- Role: Calendar function to schedule times to play.

- Tools: 3rd party API calls, JavaScript, HTML5, CSS3

Experience

Employee Dedicated Computing

2019– Current
Waukesha, WI

Using critical thinking and communication at this job we build out full rack servers for military and medical companies as well as more confidential clients, building from the ground up and installing necessary software onto the devices and tackling any software problems that may arise from doing so.

Education

Certificate, Full Stack Web Development – University of Wisconsin

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & React.

Attended Cardinal Strich university pursuing a Degree in Computer Science, Glendale, WI from 2014-2018
